## DETAILED ACTION

### Response to Arguments

1. Applicant's arguments with respect to claims 16 and 17 have been considered but are moot in view of the new ground(s) of rejection.

### Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
  2. Ascertaining the differences between the prior art and the claims at issue.
  3. Resolving the level of ordinary skill in the pertinent art.
  4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
4. Claims **16 and 17** are rejected under 35 U.S.C. 103(a) as being unpatentable over Ersek (US 3,710,789) in view of Cottone (EP 0 819 413 A2).
  5. **As to claim 16**, Ersek substantially discloses an apparatus that comprises an expandable tubular implant **10 (see fig. 1; col. 2 lines 58-65)** configured to expand from a reduced configuration to an expanded configuration (**see fig. 1; col. 2 lines 60-65**), the expanded configuration comprising a greater diameter and a shorter axial length than the reduced

configuration (**see fig. 1**) and placing the expandable implant to span and fixate the bone fracture (**see fig. 3; col. 3 lines 1-10**) but does not disclose a delivery device comprising a balloon wherein the expandable tubular implant removably attached to the exterior surface of the balloon. Cottone discloses an apparatus that comprises a delivery device **12 (see col. 4 lines 26-30)** comprising a balloon **26 (see col. 5 lines 38-40)**. Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to modify Ersek's invention by using the delivery device with the balloon of Cottone to place the expandable implant device to span and fixate the bone fracture in order to provide a tight seal so as to heal the bone.

6. **As to claim 17**, Ersek substantially discloses an apparatus wherein the expandable tubular implant comprises a tubular mesh (**see figs. 1-3; col. 3 lines 20-30**).

#### **Allowable Subject Matter**

7. Claim **28** is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not disclose a hardenable substance is inserted into the expanded tubular implant.

#### **Conclusion**

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
